

2017:

January 11, 2017 – U.S. Puts Bumblebee On The Endangered Species List For 1st Time, America

<http://www.npr.org/sections/thetwo-way/2017/01/11/509337678/u-s-puts-first-bumblebee-on-the-endangered-species-list>

February 2, 2017 – Is this the demise of the honeybee? “Commercial beekeepers in the United States have reported deaths of tens of thousands of honeybee colonies. Ninety percent of wild bee populations in the United States have disappeared, according to Target Health, Inc. In the Netherlands and the United Kingdom, bee species have declined considerably, and some have even become extinct.”
