

When you have been studying the End Times for years and years, it is sometimes easy to forget that not everyone understands the signs God has given us in His word. So for those of you who are new, I will try to make this easy to understand ☺

Most everyone has heard of the ‘antichrist’- that terrible person that will take over the world and make you take the ‘mark of the beast’. The question to ask is “**How will one man take over the world?**” The Bible is packed full of Scripture that shows us this will happen but for now we’ll concentrate on just a few.

The first is Daniel 7:23: “The fourth beast is a fourth kingdom that will appear on earth. It will be different from all the other kingdoms and will devour the whole earth, trampling it down and crushing it”. Daniel 7:7 gives us a further description: “After this I saw in the night visions, and behold, a fourth beast, dreadful and terrible, exceedingly strong. It had huge iron teeth; it was devouring, breaking in pieces, and trampling the residue with its feet. It was different from all the beasts that were before it, and it had ten horns. ”

Now we must go back to Daniel 7:24 to understand who the 10 Horns of Daniel 7:7 are:  
“The ten horns are ten kings Who shall arise from this kingdom. And another shall rise after them; He shall be different from the first ones, And shall subdue three kings.”

Take a look at the photo below:

We see from the Daniel statue that the 4<sup>th</sup> kingdom is Rome. Daniel 7:24 tells us that another shall arise AFTER them. This ‘king’ is the antichrist. In Revelation Chapter 17 Jesus shows us the Antichrist will be given power to rule the world. What we are seeing every day in the news are the

**stepping stones** that will pave the way for a system in which the Antichrist will be able to force his will.

You may love or hate President Obama, but the fact remains- he is a TOOL. A tool to bring about the Word of God. With his presidency we have seen changes in America that most of us never thought to live. His entire presidency is based on one premise: We must spread the wealth around. To pave the way for control by a central one world government, America must be brought down.

What Obama and I Learned at Columbia: How to Destroy America From Within

<http://www.theblaze.com/contributions/what-obama-and-i-learned-at-columbia-how-to-destroy-america-from-within/>

Today we are going to talk about one way the sovereignty and self-governing of America is being eroded. The way America is being forced to cede it's power to OTHERS.

It's a small thing called the Trans Pacific Partnership (TPP). It is a proposed free trade agreement between 12 countries: Australia, Brunei, Chile, Canada, Japan Malaysia, Mexico, New Zealand, Peru, Singapore, the United States, and Vietnam.

In the United States, free trade agreements are implemented as congressional-executive agreements. Unlike treaties, congressional-executive agreements require a majority of the House and Senate to pass. Under "Trade Promotion Authority" (TPA), established by the Trade Act of 1974, Fast track (trade) Congress authorizes the President to negotiate "free trade agreements... if they are approved by both houses in a bill enacted into public law and other statutory conditions are met."

Fast track expired for new agreements on July 1, 2007. It continues to apply to agreements already under negotiation BUT: The US did not enter into negotiations for TPP until September 2008. If "fast track" is renewed, then the normal treaty ratification and implementation procedure would be bypassed, and the United States Congress would instead be required to introduce and vote on an administration-authored bill for implementing the TPP with minimal debate and no amendments, with the entire process taking no more than 90 days. In early 2012, the Obama administration indicated that **a requirement for the conclusion of TPP negotiations is the renewal** of "fast track" Trade Promotion Authority.

So far so good right? It appears as long as Congress doesn't renew Fast Track there is no way the TPP can pass. But what happens if they do? And **WHY** – if this agreement is so good for America – does President Obama make Fast Track renewal a REQUIREMENT for TPP?

Originally this 'secret' agreement was not known by the public but yesterday WikiLeaks published the entire 95 page, 30,000 word text. According to WikiLeaks, "the process of drafting and negotiating the treaty's chapters has been shrouded in an unprecedented level of secrecy. Access to drafts of the TPP chapters is shielded from the general public. Members of the US Congress are only able to view selected portions of treaty-related documents in highly restrictive conditions and under strict supervision. It has been previously revealed that only three individuals in each TPP nation have access to the full text of the agreement, while 600 'trade advisers' – lobbyists guarding the interests of large US corporations such as Chevron, Halliburton, Monsanto and Walmart – are granted privileged access to crucial sections of the treaty text."

WikiLeaks also stresses that “the 95-page, 30,000-word Intellectual Property Chapter lays out provisions for instituting a far-reaching, transnational legal and enforcement regime, modifying or replacing existing laws in TPP member states. The longest section of the Intellectual Property Chapter, titled “**Enforcement**,” is devoted to detailing new policing measures, with far-reaching implications for individual rights, civil liberties, publishers, Internet service providers and Internet privacy, as well as for the creative, intellectual, biological and environmental commons”

The TPP is a direct and deadly attack on sovereignty and representative government masquerading as a Pacific Rim trade pact. Under the proposals of the TPP, American sovereignty would be eroded. American courts would be inferior to foreign trade courts and disputes between American citizens and foreign corporations would not be litigated in American courts but in these trade tribunals. As part of its membership in the TPP, the United States would agree to exempt foreign corporations from our laws and regulations, placing the resolution of any disputes as to the applicability of those matters to foreign business in the hands of an international arbitration tribunal overseen by the secretary-general of the **United Nations**. This trade pact that would constitute a judicial authority higher than even the U.S. Supreme Court that could overrule federal court rulings applying U.S. law to foreign companies, which is unconstitutional. It will also merge the United States far more deeply into the emerging one world economic system.

So we can clearly see WHY President Obama made Fast Track a requirement- he knows the American public would never allow their Congressmen to pass this. The TPP is the forerunner to the equally secret US-EU pact TTIP (Transatlantic Trade and Investment Partnership), for which President Obama initiated US-EU negotiations in January 2013. Together, the TPP and TTIP will cover more than **60 per cent of global GDP**

Just another stepping stone on the road leading to the One world government, with its one world economy led by the antichrist.
